

## **GEAPUR AD**

<b>Chemical Nature:</b>	aromatic polyurethane
<b>Active Substance:</b>	approx. 20%
<b>pH:</b>	approx. 10,0
<b>Ionic Charge:</b>	anionic
<b>Aspect:</b>	yellowish liquid
<b>Utilization:</b>	finishes adhesion

### **PROPERTIES**

---

GEAPUR AD is very soft polyurethane of small size particles, which provides excellent adhesion results with the leather fiber.

GEAPUR AD is used as adhesion resin for all types of leathers: fatty, water repelling, and waxy leathers, etc. It can also be used as auxiliary resin in hard adhesion covering between layers.
