

## **GEAPUR 1840**

<b>Chemical Nature:</b>	aliphatic polyurethane in water base
<b>Active Substance:</b>	approx. 17%
<b>pH:</b>	approx. 9,0
<b>Ionic Charge:</b>	anionic
<b>Film Hardness:</b>	medium-soft
<b>Film Transparency</b>	transparent
<b>Aspect:</b>	transparent liquid
<b>Utilization:</b>	covering coats and Topcoats

### **PROPERTIES**

---

GEAPUR 1840 is a medium hard polyurethane, with small particles. Combined with caseins of GEABIND range, achieves excellent results of physical fastness allied with a natural look. GEAPUR 1840 has excellent reactivity to the hit and because of that, high shiny and transparent finishes are obtained after iron or smooth plate in high temperatures.
