

GEAPUR FL 20

Chemical Nature:	aliphatic polyurethane in solution
Active Substance:	approx. 18%
pH:	approx. 7,0
Ionic Charge:	anionic
Film Hardness:	soft
Film Transparency	transparent
Aspect:	transparent liquid
Utilization:	natural finishing

PROPERTIES

GEAPUR FL 20 is a polyurethane with extremely small particles and natural film. Its usage is indicated for casein natural articles that requires good resistance. GEAPUR FL 20 can be used for polish pré-bottom and light covering coats. GEAPUR FL 20 presents perfect combination with waxes, caseins and acrylic resins. It is specially indicated for full grain articles on goat, sheep and calf leathers.
