

## **GEAPUR RB**

<b>Chemical Nature:</b>	aliphatic polyurethane in aqueous basis
<b>Active Substance:</b>	approx. 32%
<b>pH:</b>	approx. 8,0
<b>Ionic Charge:</b>	anionic
<b>Film Hardness:</b>	medium hard
<b>Film Transparency</b>	opalescent
<b>Aspect:</b>	white liquid
<b>Utilization:</b>	top coats

### **PROPERTIES**

---

GEAPUR RB is a matt polyurethane that can be used with other polyurethane of GEAPUR range in order to provide a matt effect and rubber hand feeling. Top coats with GEAPUR RB are very flexible and abrasion resistant whether dry or wet. To enhance its physical-mechanical properties the usage of a cross-linker like GEAFIX 7 is indicated.

In combination with the other polyurethanes of GEAPUR range it can be applied by spray or roller-coater system with excellent leveling. GEAPUR RB has a special property of not presenting “polishing” and brightness with friction, always remaining with the same matt intensity.
